F.A.C.E.2Face is now busy preparing for its sixth edition, and we would like to thank all of you for your contribution to our growing success: our success is your success.

Together, we have made F.A.C.E.2Face the landmark autumn congress.

This success is also the fruit of our commitment, year after year, to ensuring that every participant feels part of a high quality congress in which science has reclaimed the central position it merits, as witnessed by our Scientific Program.

Sharing knowledge, topical information and the latest innovations whilst remaining affordable is a challenge we are happy to take on.

The issue of creativity is not to be ignored, and is expressed through the Cannes International Aesthetic Film Festival, which proved universally popular. It was a great idea, and we thought of it and made it happen.

Finally, each year we pay tribute to the humanitarian work of our fellow professionals by selecting a non-profit organization as beneficiary of the funds raised in the course of the gala evening.

This is how we see the DNA of F.A.C.E.2Face.

SESSION VII: ADJUNCTIVE TREATMENTS IN AESTHETIC GYNECOLOGY

Developing a successful aesthetic gynecology practice requires a range of services. This thought-provoking session provides an overview and outlines current trends.

SESSION VIII: SEXOLOGY AND AESTHETIC GYNECOLOGY

What is sexology? Why is it important? All you need to know about this important and relevant field, from anatomy and physiology to surgical and non-surgical therapies.

SESSION V: LABIA MINORAPLASTY AND MAJORAPLASTY PART 2

The labia majora play an important role in genital aesthetics. Learn anatomy and technique of both volume enhancement with fat and fillers as well as surgical reduction.

SESSION VI: BODY CONTOURING SYNERGY IN AESTHETIC GYNECOLOGY

World-renowned body contouring surgeons describe cutting-edge techniques for contouring the mons pubis, high-definition liposculpture, mini-abdominoplasty and more.

SESSION I: GLOBAL TRENDS IN AESTHETIC GYNECOLOGY

Aesthetic genital surgery has become increasingly important as a distinct multidisciplinary field within aesthetic surgery. This exciting opening session provides an overview and outlines current trends.

SESSION II: LABIA MINORAPLASTY AND MAJORAPLASTY PART 1

Labia minoraoplasty is no longer considered a simple excisional technique. In this session, leading experts in aesthetic gynecology describe the artistic approach to labia minoraoplasty and clitoral hoodoplasty.

SESSION III: SURGICAL TIGHTENING PROCEDURES

Perineoplasty and vaginoplasty represent definitive solutions to cosmetic and functional problems. Attendees at this session will learn planning, technique, and pitfalls in these life-changing procedures.

SESSION IV: ENERGY-BASED DEVICES IN AESTHETIC GYNECOLOGY

What novel systems for vaginal and vulvar rejuvenation are available? Experts will discuss what’s hot, from lasers to radiofrequency, including the most useful indications and results.

SESSION V: LABIA MINORAPLASTY AND MAJORAPLASTY PART 2

The labia majora play an important role in genital aesthetics. Learn anatomy and technique of both volume enhancement with fat and fillers as well as surgical reduction.

PROGRAMME AT A GLANCE

Friday September 9th

Room 1: Acajou I

08:30-10:30
LAzer & led
Photodynamics: a concept that can be customized!

11:00-13:00
FRENCH TOUCH: SESSION
The French touch has a worldwide reputation in terms of its “natural” effect. During this session the major players who defend this technique will reflect on the excessive trends of the past and even of the present day, to restore a softer form of medicine.

13:00-14:00
LUNCH BREAK - MERZ AESTHETICS - VISIT OF THE EXHIBITION

14:00-16:00
FILLER INJECTION AND PIGMENTATION DISORDERS
Did you know that glabellar wrinkles convey a negative expression (aggressiveness...), whereas crow’s feet wrinkles are connected to a positive expression (smile)?

16:00-18:00
ENERGY BASED REJUVENATION TECHNIQUES
These techniques are definitely the most innovative procedures in 2016. Your practice will change as patients are now looking for these minimal invasive techniques with outstanding outcomes.

Saturday September 10th

**Room 1: Acajou I**

**LIVE DEMO SHOW**
**FULL DAY**

08:30-10:30
- **SESSION I:** EXPERTS SHARING BEAUTIFICATION SECRETS - A UNIQUE ADVANCED LIVE DEMO SHOW
  - The day will be devoted to demonstrating techniques and procedures in aesthetic medicine.
  - This exceptional training opportunity will enable the best practitioners to give away their secrets and show you all the little details that often make a big difference in aesthetic medicine.
  - All the anatomical areas will be specifically studied.
  - All the effective rejuvenating technologies and products will be represented.

**SESSION II:**
- **LOWER FACE - NECK AREA**
- Since recently this area was dedicated to plastic surgeons, ultrasound's therapy and fat resorption injection fillers and botulinum toxin changed the paradigm.

- **LUNCH BREAK - VISIT OF THE EXHIBITION**

**14:00-16:00**
- **FACIAL GLOBAL APPROACH**
  - The goal for combined techniques is to prevent and treat the signs of the aging process. As the aging process is not smooth and for all area of the same occurrence and speed, the treatment plan often requires combined techniques. The knowledge of these combined treatments will be in the future the best way to increase the number of your patients.

**SESSION VII:**
- **COMPLICATIONS OF COSMETIC EYELID SURGERY & PERIOCULAR FILLERS**
  - Learning how to avoid and manage complications following aesthetic rejuvenation of the eyelids is a prerequisite for offering these services to patients. This session offers algorithms for management of complications.

**SESSION VIII:**
- **PTOSIS AND BROW LIFTING**
  - The speakers will describe their approach to treating ptosis and creating aesthetically ideal brow position.

16:00-16:30
- **COFFEE BREAK & VISIT OF THE EXHIBITION**

16:30-17:30 **HANDS**
- Hands rejuvenation is the second demand of our patient after the face. When you are dressed, you show face and hands... and the dorsal part of the hand betrays your age. And for that, it’s important for you to know exactly how to treat this area.
- **17:30-18:00 VOTE FOR THE BEST RESULT - BEST INJECTOR**

16:30-18:00 **SESSION IX:**
- **SURGICAL AND NON-SURGICAL BEAUTIFICATION & CORRECTION OF PERIOCULAR ASYMMETRY**
  - Learn how procedures can impact the aesthetics around the eyes. From non-surgical techniques using fillers, focused ultrasound, and chemodenervation to advanced oculoplastic surgical techniques.

**Room 2: Acajou II**

**OCTOPLOPLASTIC SESSIONS**

10:30-11:00
- **SESSION IV:** LOWER LID BLEPHAROPLASTY TRANSCONJUNCTIVAL APPROACH
  - The transconjunctival approach obviates the need to traverse the septum.
  - The speakers will reveal their techniques, including novel ways to deal with the aging lid-cheek junction through the transconjunctival incision.

**SESSION V:**
- **PERIOCULAR VOLUME RESTORATION WITH FAT**
  - Learn techniques that optimize fat graft survival in the supraorbital, infraorbital, and periorbital regions. A must-attend session for any surgeon interested in improving their results with fat.

**SESSION VI:**
- **PERIOCULAR NON-PERMANENT FILLERS**
  - Leading authorities describe which filler to use and how much, which plane, and how to restore youthful contours around the eyelids, in the brow, forehead, and temporal region.

**SESSION VII:**
- **COMPLICATIONS OF COSMETIC EYELID SURGERY & PERIOCULAR FILLERS**
  - Learning how to avoid and manage complications following aesthetic rejuvenation of the eyelids is a prerequisite for offering these services to patients. This session offers algorithms for management of complications.

**SESSION VIII:**
- **PTOSIS AND BROW LIFTING**
  - The speakers will describe their approach to treating ptosis and creating aesthetically ideal brow position.

**Room 3: Palissandre**

**MINI INVASIVE MANAGEMENT OF AGING OF THE FACE**
- THREADS VERSUS SURGERY (INTERACTIVE VIDEO SESSION)
  - What is the true indication for threads in the treatment of facial aging?
  - How has modern surgery changed?

10:30-11:00
- **SESSION II:** UPPER LID BLEPHAROPLASTY TIPS AND TRICKS
  - Skin only? Muscle? Sculpting the orbital fat? Attendees at this session will learn important tips and tricks to obtain beautiful results whilst avoiding pitfalls.

**SESSION III:**
- **LOWER LID - BLEPHAROPLASTY TRANSCUTANEOUS APPROACH**
  - Leading surgeons give key insights into thiese operative technique, from correcting tissue redundancy to relieving bulging fat and intrude canthal support techniques.

**11:00-13:00**
- **COFFEE BREAK & VISIT OF THE EXHIBITION**

**13:00-14:00**
- **LUNCH BREAK - VISIT OF THE EXHIBITION**

14:00-16:00
- **FUTURE OF ANTI-AGING: COSMETOLOGY, NUTRITION, INNOVATION**
  - How to age successfully up to 150 years old?

**SESSION X:**
- **PEELING AND LASER SESSION**
  - Friends or enemies? How to make a choice between 2 options that are often very different?

16:00-16:30

  - Learn how procedures can impact the aesthetics around the eyes. From non-surgical techniques using fillers, focused ultrasound, and chemodenervation to advanced oculoplastic surgical techniques.
La « french touch » est connue à travers le monde pour respecter le naturel du visage. Lors de cette session, les plus grands défenseurs de ces techniques viendront recadrer les excès passés et parfois actuels, pour rétablir une médecine plus douce.

**SESSION VII: TRAITEMENTS COMPLÉMENTAIRES EN GYNÉCOLOGIE ESTHÉTIQUE**

Le développement d'une activité de gynécologie esthétique va de pair avec toute une série de services annexes. Cette session donnera une idée de divers traitements intéressants, chirurgicaux et non-chirurgicaux.

**SESSION VIII: SEXOLOGIE ET GYNÉCOLOGIE ESTHÉTIQUE**

Qu'est-ce que la sexologie ? Pourquoi est-elle importante ? Tout ce que vous devez savoir sur ce domaine important et associé, de l'anatomie et de la physiologie aux traitements chirurgicaux et non chirurgicaux.

**SESSION IX: PROCÉDURES CHIRURGICALES DE RRESSERREMENT**

La périnéoplastie et la vaginoplastie constituent des solutions chirurgicales définitives aux problèmes d'ordre esthétique et fonctionnel. Les participants de cette session auront une meilleure compréhension de la préparation, de la technique et des difficultés de cette procédure.

**SESSION X: NOUVELLES IDÉES, NOUVEAUX TRAITEMENTS, NOUVEAUX PRODUITS**

De nouvelles technologies sont développées chaque année en rajeunissement facial. Les dernières tendances et concepts de demain sont ici discutés.

**SESSION XI: TECHNIQUES DE RAJEUNISSEMENT BASÉES SUR L'ÉMISSION D'ÉNERGIE**

Ces techniques correspondent aux innovations les plus récentes en 2016. Elles vont indéniablement modifier votre pratique, grâce à des résultats exceptionnels.

**SESSION XII: TOXINE BOTULIQUE : NOUVELLES INDICATIONS ET DERNIERS PROTOCOLES**

Comment injecter au mieux : meso ou intra-musculaire, Que choisir ? À l'aube de l'arrivée de nouvelles toxines, voici l'occasion de faire une révolution dans les injections faciales ! Des experts venus du monde entier partageront leurs expériences et apporteront des cas cliniques montrant du meilleur côté au plus mauvais...
**Synoptique du programme**

**Samedi 10 Septembre**

**Salle 1 : Acajou I**

**08:30-10:30**

**SECRETS D'EXPERTS EN MÉDECINE ESTHÉTIQUE : LE LIVE DEMO SHOW**

Journée consacrée aux démonstrations de techniques et de procédures en médecine esthétique.

Cette formation exceptionnelle permettra aux meilleurs praticiens de montrer leurs secrets et tous les détails et outils qui font sou- vent la différence en médecine esthétique.

Toutes les zones anatomiques seront spécifiquement abordées. Tous les produits et technologies efficaces sur le rajeunissement seront représentés.

**08:30-09:30** PARTIE HAUTE DU VISAGE

**09:30-10:30** PARTIE MOYENNE DU VISAGE

**10:30-11:00**

**PAUSE CAFÉ ET VISITE DE L'EXPOSITION**

**11:00-13:00**

**PARTIE BASSE DU VISAGE ET COU**

La chirurgie était jusqu'à présent le seul traitement efficace sur cette partie du visage. Mais l'émergence de nouvelles techniques et produits qui vont montrer les experts en live, permet aujourd'hui de changer la prise en charge de cette région difficile.

**11:00-12:00** BLÉPHAROPLASTIE DE LA PAUPIÈRE INFÉRIEURE – ABORD TRANSCUTANÉ

Des chirurgiens reconnus partageront leur savoir à propos de la technique opératoire, de la correction cutanée à l'exérèse musculaire en passant par le prélèvement graisseux et les techniques complexes de soutien du canthus.

**12:00-12:30** SESSION IV: BLEPHAROPLASTIE DE LA PAUPIÈRE SUPÉRIEURE

La blépharoplastie de la paupière inférieure par l'abord transconjunctival évite de traverser le septum. Les orateurs présenteront leurs techniques, y compris des méthodes novatrices pour traiter l'affaissement lié à l’âge de la jonction entre paupière et joue.

**12:30-13:00** SESSION V: RESTAURER LE VOLUME PERIOULAIRE AVEC DES INJECTIONS DE GRAISSE

Du prélèvement et de la préparation jusqu’à la précision de l’insertion de la graisse avec des techniques qui permettent de maintenir dans les régions sus-, sub- et péri-orbitaires. Une session à suivre absoluement pour tout chirurgien qui s’intéresse à un rajeunissement du regard à la fois spectaculaire et durable.

**13:00-14:00**

**PAUSE DÉJEUNER - VISITE DE L'EXPOSITION**

**14:00-16:00**

**APPROCHE GLOBALE DE LA FACE**

Le but des techniques combinées est de prévenir et traiter les signes du vieillissement dans sa globalité. Comme ces signes sont multifactoriels, il est important de proposer aux patients un plan de traitement axé dans le temps et le lieu de techniques différentes. La connaissance de ces plans de traitement d’approche globale du visage vous permettra dans le futur d’accompagner votre patient.

**14:00-14:30** SESSION VII: COMPLICATIONS DE LA CHIRURGIE ESTHETIQUE DES PAUPIERES ET DES FILLERS PERIOULAIRES

Comment éviter les complications et savoir comment les prendre en charge quand elles apparaissent. Cette session explorera tout ce qui peut mal tourner et proposera des algorithmes décisionnels pour y faire face.

**14:30-15:00** SESSION VIII: PTOESIS ET LIFTING DU FRONT

Les orateurs présenteront leur approche pour traiter le ptosis et créer esthétiquement la position du front idéale.

**15:00-16:00**

**PAUSE CAFÉ ET VISITE DE L'EXPOSITION**

**16:00-16:30**

**16:30-17:30 MAINS**

Le rajeunissement des mains est la seconde demande des patients dans nos cabinets. Une fois le visage pris en charge, ce sont les mains qui transmettent notre âge... D'où l’importance de proposer et de connaître les techniques spécifiques et les nouveaux produits adaptés à cette région.

**17:30-18:00** VOTE POUR LE MEILLEUR RÉSULTAT D’INJECTION

**16:30-18:00**

**SESSION IX: AMELIORATION ET CORRECTION CHIRURGICALES ET NON-CHIRURGICALES DE L'ASYMMETRIE PERIOULAIRE**

On apprendra ici comment un traitement chirurgical ou non chirurgical peut modifier l’esthétique de la région péri-orbitaire. La session traînera des techniques non chirurgicales faisant appel aux filtres, aux ultrasons focalisées et à la chimio-dénervation.

**16:30-18:00**

**PEELING ET LASER**

Aimis ou ennemis ? Comment faire son choix entre 2 options souvent très différentes ?

**16:30-18:00**

**SESSION X: PRISE EN CHARGE MINI INVASIVE DU VIEILLISSEMENT DE LA FACE**

Quelle est la place réelle des fibres dans le traitement du vieillissement faciale ?

Comment la chirurgie esthétique s'adapte-t-elle évolué ?

**17:30-18:00** VOTE POUR LE MEILLEURE RESULTAT D’INJECTION
08:30
